ABOUT FOSTIIMA

FOSTIIMA A UNIQUE B-SCHOOL

Guiding the vision and values that shape future leaders at FOSTIIMA BUSINESS SCHOOL.

“Leadership is about creating impact and inspiring change.”

FOSTIIMA was established in 2007 by the alumni of IIM Ahmedabad (FOSTIIMA is an acronym for Friends Of Seventy-Three batch of IIMA) with the aim of imparting quality management education benchmarked to the IIMs. FOSTIIMA provides an IIM atmosphere and excellent career opportunities to those who have not been able to make it to the IIMs.

FOSTIIMA has the largest group of IIM Ahmedabad graduates working together with the sole intent of giving back to society. Not only is it founded and managed by IIMA alumni, today more than 35 IIM-IIT alumni are directly providing inputs at FOSTIIMA in management, curriculum design, content development, and as faculty. They bring with them their vast corporate experience, industry best practices, and global business perspectives to FOSTIIMA students.

FOSTIIMA's PGDM Program has been accredited by the National Board of Accreditation (NBA) and is also accredited equivalent to an MBA of Indian Universities by AIU. FOSTIIMA is categorized as a BBB+ Tier 2 B-School by T.I.M.E., the premier CAT coaching institute.

At FOSTIIMA, we take great pain in mentoring students with the sole objective of grooming them to their peak potential so that they can carve out a successful career for themselves and also make a positive contribution to the society, business and industry.

FOSTIIMA Differentiators - Total IIMA Flavour

- Founders All - IIMA Educated
- Managed By - IIMA Grads
- Faculty - IIM Grads with vast experience in diverse industries/fields
- Curriculum - Benchmarked to IIMs
- Placement - Through Pan IIT - Global Network

FOSTIIMA STRENGTHS

Management Education - Which Inculcates Critical Thinking in aiding Business Decision

Management education at FOSTIIMA focuses on developing the analytical skills of students to help them analyze management problems from multi-functional perspectives and to provide them a practical perspective of management to enable them to apply text-book management concepts and techniques to practical situations that they are likely to encounter in their work-life.

The FOSTIIMA course curriculum is benchmarked to the IIMs. It is contemporary in tune with the needs of the industry and is focused on making students job-ready. The curriculum is updated at regular intervals based on inputs from eminent academicians and industry experts. Care is exercised to encapsulate knowledge inputs in all new and emerging areas. FOSTIIMA offers Dual Specialization to its students, with each specialization having equal importance.

CURRICULUM

The areas of specialization are:

- Marketing
- Finance
- Human Resources
- AI, Analytics & Operation Management
- International Business

In addition to core and specialization subjects, the curriculum includes a number of cutting-edge subjects like Business Analytics, Digital Marketing, New Trends In Marketing, Emerging Technologies etc.

ADDITIONAL CUTTING EDGE COURSES AND CERTIFICATIONS

FOSTIIMA students are provided the opportunity to study additional courses such as Predictive Analytics, Advanced Excel, Digital Marketing, Business Analytics, Big Data Analytics, Artificial intelligence (AI) + Prompt Engineering, Block Chain, Power BI / Tableau, Fund Accounting, Machine Learning, Certification on US Accounting & Tax Law in association with Fin X which further enhance their job prospects. Separate certificates are provided for the advance study of these courses to those students who qualify by passing the exams with greater than 75% marks.

INTERNATIONAL TRIP

Learning Beyond Borders, Creating Memories Beyond Limits.

Travel

FOSTIIMA provides its students an opportunity to broaden their vision and develop their personality by an Exposure cum-Educational International Trip.

While the trip structure entails cross-cultural heritage and constructive relationship building to facilitate globalization of indian business

The main purpose of the trip is to showcase to the students the international culture and business environment at a selected location either in the Middle East or far east.

Through this enriching journey, students gained valuable global exposure, created unforgettable memories and developed. It is also a lot of fun for the students. Last year students were taken to Dubai.

01 ELIGIBILITY

A Bachelor's Degree in any discipline recognized by the UGC with a minimum of 50% marks or equivalent CGPA.

Applicants appearing for the final year of the Bachelor's degree and those who have completed the degree requirements and are awaiting results can also apply.

The Institute considers CAT / XAT / CMAT scores for admission to the PGDM Program. The expected cut-offs are 70%ile for CAT/XAT and 85%ile for CMAT.

02 APPLICATION PROCESS

Procurement of Form: The Application Form is available on the website www.fostiima.org. Fill the Application Form online and upload the educational documents and a passport-size photograph.

Application Fee: The Application Form can be submitted online by paying ₹1,200 through Credit Card, Debit Card, Net Banking, UPI, PhonePe, or Paytm.

03 SELECTION PROCESS

The Application Forms of applicants who fulfill the eligibility criteria will be shortlisted for further participation in the selection process. The selection for shortlisted students is carried out through a structured process which considers the applicant's composite academic performance at school, graduation, score in CAT/XAT/CMAT examinations, Writing Ability and performance in Group Discussion and Personal / Skype / Online Interviews. Selection is based on a weighted average score of an applicant's overall performance. Applicants with relevant work experience of at least two years and extra-curricular accomplishments will be given special consideration in the selection process.

04 REGISTRATION PROCESS

Successful applicants shall be informed of their selection through an Admission Offer Letter. The selected applicants must deposit the Registration Fee of ₹75,000/- within the time frame given in the Admission Offer Letter to secure their admission along with the offer letter and may be passed on to other candidates.

FOSTIIMA has limited intake and seats shall be offered to selected applicants on a first-come, first-served basis.

PGDM 2027-29 ADMISSION PROCESS

FEE STRUCTURE

TOTAL FEES FOR TWO YEARS

11,95,000/-

NATURE OF FEE	AMOUNT	DUE DATE

A Scholarship of Rs. 3.00 Lac for percentile holder from 80 to 85

A Scholarship of Rs. 3.50 Lac for percentile holder from 85 to 90

A Scholarship of Rs. 4.00 Lac for percentile holder from 90 to 95

A Scholarship of Rs. 4.50 Lac for percentile holder > 95

FOSTIIMA BUSINESS SCHOOL Creating Leaders for Tomorrow With Case- based Learning and Strong Pedagogy

FOSTIIMA Business School, founded in 2007 by seven alumni of IIM Ahmedabad, aims to provide IIMA education to those unable to attend top institutes. Starting with 25 students, FOSTIIMA has grown to over 350, recognized by AICTE. FOSTIIMA is deeply committed to supporting economically weaker sections and promoting women's empowerment. It helps students secure bank loans and offers entrepreneurial development.

Mr. Anil Somani, Chairman
FOSTIIMA Business School, Delhi

FOSTIIMA owes its success to the visionary leadership of Mr. Anil Somani, its founder Chairman. A graduate of IIT and IIM, Mr. Somani has a strong academic and business background, and has held significant social and public positions. Despite challenges like the Lehman Brothers crisis, his leadership helped FOSTIIMA navigate adversity by building strong corporate partnerships. Realising that the bottom line in B-School space is placement, FOSTIIMA is committed to provide excellent jobs to its students.

Mine the data

A few tips to ace Mixed Data Interpretation Sets in the Common Admission Test (CAT).

Anil Somani

The Common Admission Test (CAT) is a national-level entrance exam for admission to management programmes in B-Schools. It evaluates a student's Verbal Ability, Reading Comprehension, Data Interpretation, Logical Reasoning and Quantitative Ability. One of the most challenging sections in this exam is Data Interpretation, especially as it consists of mixed sets that often combine various data presentation formats including graphs, charts, tables, and logical sequences.

Also this section is divided into two parts: Data Interpretation and Data Sufficiency. When it comes to mixed sets, it presents information in more than one form. For example, a set may combine a bar graph and a pie chart or present data in a table format alongside a line graph. Unlike straightforward DI sets, these require candidates to interpret data from multiple angles and integrate the information for coherent conclusions.

sights from the bar graph first, then move to the pie chart. This will not only help you avoid information overload but will lower chances of mistakes.

Practice regularly: Frequent mock tests will help you master mixed DI sets by simulating exam-like conditions to manage time and pressure. Make sure your mocks include a variety of mixed DI questions so that you can identify and work on your strengths and weaknesses separately.

Develop quick calculation techniques: Thought the CAT allows calculators, relying on them can be time-consuming and unproductive. Hence, agility in mental Maths and quick calculation methods are crucial. Techniques such as approximation, ratios, and percentages can save time and help you solve DI sets more efficiently.

Challenges
When attempting mixed DI sets, students often face various challenges during the exam. Here are a few common ones and how to overcome them.

Data misinterpretation

thehindu.com/education + 49

FOSTIIMA Business School hosted a three-day online faculty development programme on **Leveraging Analytics for Strategic Business Management** for faculty members from JIMS, GIBS, and Arun Jaitley National Institute of Financial Management.

ANALYTICS FOR STRATEGIC BUSINESS MANAGEMENT
Minister for Communications and Development of North Eastern Region Jyotiraditya Sinha in conversation with Vandita Mishra, National Opinion Editor, The Indian Express, and Rishi Raj, Executive Editor, The Financial Express, the Express Adda in New Delhi on Wednesday, 14th April 2024.

A Vision Born from Excellence

FOSTIIMA Business School stands as India's most distinctive management institution—an initiative born from the passion, commitment, and academic legacy of IIM Ahmedabad alumni.

Established in 2007, FOSTIIMA (short for Friends of IIM-A) Sharing the IIM-A Experience) was founded with a clear mission: to democratize world-class management education and ensure that talented students across India gain access to transformational learning.

The founders—accomplished corporate leaders and IIM Ahmedabad graduates—believed that the power of IIM-style education should not remain restricted to those who clear a high CAT cutoff. FOSTIIMA became their answer to this gap—a school built on IIM ethos, IIM pedagogy, and IIM mentorship, yet more inclusive, accessible, and future-ready.

ANIL SOMANI Shaping Leaders, Building Futures at FOSTIIMA Business School

Mr. Somani says - "Education is not just about degrees—it's about igniting potential and transforming lives."

From humble beginnings to a life of purpose, Mr. Somani's journey is a testament to vision, perseverance, and academic excellence. A graduate of the Indian Institute of Management (IIM) Ahmedabad, he demonstrated exceptional talent from an early age. Breaking barriers, he became the first of his kind to achieve the rare and highly coveted IIT-IIM certification—an accomplishment that continues to inspire countless students across the nation. At these premier institutions, where education is fiercely competitive, he further distinguished himself as a recipient of merit scholarships, underscoring his exceptional talent and dedication.

The Visionary Behind FOSTIIMA
In the vibrant world of management education, where institutions compete to produce the brightest minds, few names stand out for their vision, commitment, and impact. One such leader is Anil Somani, the driving force behind FOSTIIMA Business School, a unique institution at the heart of the nation's educational landscape.

An Education Rooted in Values
For Anil Somani, true education must build character as much as it imparts knowledge. He believes that as an age where corporate giants and global players are shaping the future, institutions have a moral responsibility to instill values, resilience, and responsibility in their students. At FOSTIIMA, this ethos is evident in its nurturing culture—where students are paired with an IIM graduate who acts as both guide and mentor.

Empowering the Next Generation
Anil Somani is deeply passionate about empowering young minds. He strongly believes that today's youth carry the responsibility of shaping tomorrow's economy and society. Through FOSTIIMA, he ensures that students from diverse backgrounds—ranging from rural areas to urban centers—gain access to world-class education and opportunities.

He has also championed inclusivity by ensuring that students with disabilities, financial constraints, and learning support are not left behind. " talent should never be stifled by resources," Somani often says, "referring to his belief that no one should be denied education for want of funds."

Recognizing and Inspiring
Over the years, FOSTIIMA Business School has been consistently recognized among the top emerging institutions in India. Much of this credit goes to Somani's ability to blend academic rigor with industry relevance. Anil Somani's leadership spans across various domains—academic, administrative, strategic, and public sector organizations, leaving a lasting legacy in the education sector.

As Somani often says, "The true measure of education is not what students achieve for themselves, but what they contribute to the world around them."

With leaders like him showing the educational landscape, the future of Indian management education is not just promising—it's inspiring.

MAGAZINE INVEST NEWS BANKING INSURANCE REAL ESTATE TAX PLAN RETIRE

"With no personal dependents, the primary objective of purchasing term insurance, which is economic protection in case of death, becomes less relevant. At this point in their lives, such funds could be better utilized in other, more pressing issues like saving for retirement or investing in high-yield securities. Budget constraints are another aspect to bear in mind because if the cost of term insurance premiums is too heavy on the individual, it might not be wise to sign up for a policy. It is better to have insurance that provides financial cover and peace of mind and does not cause any excess burden when it comes to the household budget," says Prof Dr Gaurav Singh Khanna, CFA, IFM, Corellian, Finance Professor at Fostima Business School - Delhi.

"Whereby one clearly outlines the basic needs, and such needs are already proving to be a challenge in management, it is prudent to alleviate the concerns of acquiring other insurance, e.g., cheaper but effective coverage. Ultimately, the implementation of term insurance coverage will depend on the personal financial condition and the financial needs over a longer period," he adds.
